- Timer, occupancy sensor, thermostat, smart home and BACNET accessories available
- Wall dimmer switch included

HEAT ENGINEERED. COMFORT PERFECTED.

We deliver heat to spaces where comfort seems impossible. To do this, we rely on our proprietary heater layout tool - known to us as HEATSPEC.

HEATSPEC patterns and layouts are created by our engineers. Our heater coverage patterns are taken from actual test data measured in our test lab and layouts are completed by one of our Application engineers. Bring confidence to your heating project with HEATSPEC.

DRIVEN BY ENGINEERING, DESIGN AND PERFORMANCE

Solaira heaters outlast the competition with superior design, construction and materials. Our products are designed for infrastructure use and make both indoor and outdoor spaces better - improving productivity and allowing people to live more comfortably.

WHAT SETS OUR PRODUCT APART?

- Extruded aircraft aluminum fixtures
- Stainless steel screws and bolts
- Ultra-low glare tungsten lamps
- Mirror aluminum reflector
- Industry leading warranty
